Accessories

Bag for shelves
Item IS-80-TB05

Deco light strip,
item IS-9308

Transformer,
item IS-9309

Mounting instruction

1 Unlock the two screws on the beam and take away the shelf from the beam.

2 Attach the beam in front of the cut out you have done in the graphic panel.

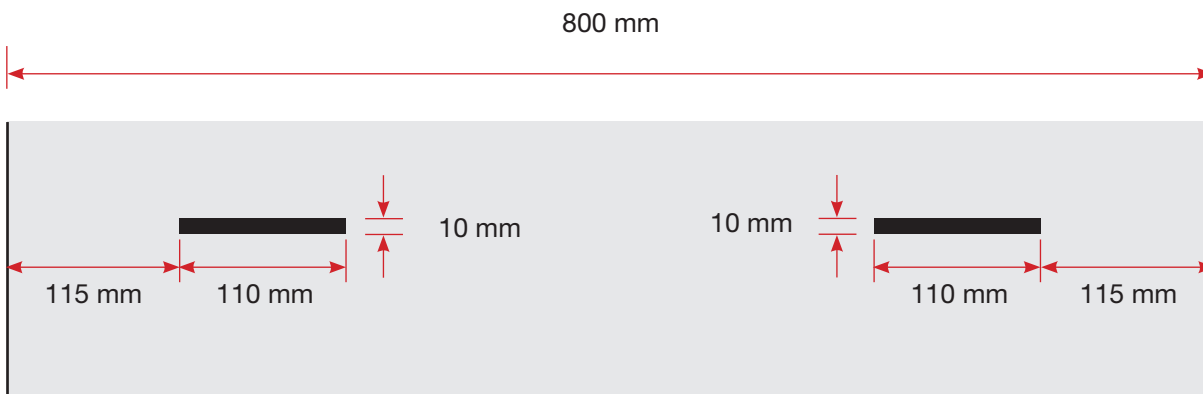

3 Push in the shelf in the cut out you have done in the graphic panel (see below).

4 Lock the screws at the reverse side of the graphic panel.

Graphic production

1 Make a 110 mm wide and 10 mm high cut out in each side of your graphic panel in that height you want to place the shelf/shelves.
